Projects

Professor Layton Stories
  https://github.com/htavard/ProfessorLaytonStories

Read about Professor Layton's Lore and try to redo your favorite enigmas.

C#, HTML, CSS, ASP.NET

Shopping Fraud Detection

Created an AI model capable of predicting potential fraudster, given their basket. The goal was to have PR-AUC above a certain benchmark (0.14).

Histoires Croquignolesques
  https://github.com/htavard/Histoires_Croquignolesques

In this story, you are the hero. Go your own way and make the right choices to win.

PHP, JavaScript
